

2011 Marketing Committee - Shannon Ryder

We are all looking forward to offering a few new quality products and of course the old favorites. With the goal of providing top quality products for affordable pricing the committee has focused on lowering the inventory; this being said far less clothing has been ordered this year than in the past so stop by early to get the best selection. Of course the option of ordering while at the conference for home delivery will be available, and don't forget to check out the online store for gift ideas throughout the year. For your convenience Visa/MasterCard, personal checks or cash will be accepted. If there is an item you would like and you don't see it online or at the booth, please let us know.

The marketing booth will only be set up Thursday and Friday so make your selections early.

2011 Marketing Committee
